Souheil Guellil

Computer Science Graduate & HPC Master's Student

Email: guellilsouheil16@gmail.com | LinkedIn: linkedin.com/in/souheil-guellil-55b59a290 | GitHub: github.com/canopus01010011

PROFESSIONAL SUMMARY

Computer Science graduate (USTHB, ISIL specialization in information systems and software engineering) currently pursuing a Master's degree in High-Performance Computing (HPC). Frontend-focused full-stack developer with hands-on experience across web, mobile, and backend systems, including a final-year internship at Ericsson on an IoT-based telecom equipment tracking platform. Experienced in team projects, including a five-member final-year project and a six-member project management mini-project.

EDUCATION

Master's Degree, High-Performance Computing (HPC) – In progress
2026 – Present

Bachelor's Degree, Computer Science – Specialization ISIL (Ingénierie des Systèmes d'Information et du Logiciel)
USTHB · 2024 – 2026 · Completed

Baccalauréat, Scientific Stream – Mention Très Bien
2023

EXPERIENCE

Final-Year Project Intern – Ericsson (ErcTrack)
Final-year project (PFE) internship · Five-member team · 2026

- Designed and developed an integrated platform for telecom equipment tracking and management based on IoT technologies, combining a mobile application for drivers and technicians with a web-based administrative dashboard for mission supervision and resource management.
- Built across the stack: React Native mobile app, React.js web dashboard, Node.js / Sequelize / PostgreSQL backend, and a Python GPS simulator, with Redis, Socket.IO, Firebase Cloud Messaging, HiveMQ Cloud (MQTT), and FastAPI.
- Aligned the backend with the project's UML class diagrams, fixing model and field mismatches across Mission, Equipment, GPSDevice, TrackingData, and Notification entities.
- Contributed to technical documentation, database schema reviews, and sprint planning.

Production Agent (Agent de Production)
Three summer periods · 2024, 2025 and 2026

- Worked as a production agent over three summer breaks, supporting daily production operations.
- Built soft skills in a real working environment, learned to work with production machines, and gained insight into how businesses and workplaces operate.

SELECTED PROJECTS

Hami AI
Hamster-themed AI assistant that chats, understands user intentions, manages tasks and deadlines, and displays animated moods. (React, TypeScript, FastAPI, Gemini API, SQLite)

OP3 Community Platform
PHP/MySQL community platform for managing anime, movies, books, games, suggestions, votes, profiles, albums, scores, and a decision wheel, with secure general and private chat (reactions, replies, file uploads, voice notes, GIFs). (PHP, MySQL, JavaScript)

GameVerse (Steam Clone)
Desktop game storefront with sign-up, searchable game catalog, purchases, and library and profile management, styled with a custom dark theme. (JavaFX, MySQL)

Restaurant Management System
Restaurant order and payment system in Java demonstrating four design patterns (Singleton, Strategy, Observer, Composite) in a layered architecture. (Java)

FieldOps – Mission and Equipment Dispatch Management System
Six-member team project for the Project Management module, addressing the largely manual preparation of equipment deployment missions in industrial companies.

Canopus Realm
Personal project hub bringing 15 web projects (games, utilities, dashboards) together under one shared identity and authentication system.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, TypeScript, Python, PHP, Bash

Web & Backend: HTML, CSS, React, Node.js, FastAPI, Spring, Vite

Databases: PostgreSQL, MySQL, SQLite, Oracle, Redis, Firebase

Tools & Systems: Git, GitHub, Linux, Postman, Jira, IntelliJ

Concepts: Design Patterns (Singleton, Strategy, Observer, Composite), IoT, High-Performance Computing

SOFT SKILLS

Problem Solving, Teamwork, Communication, Adaptability, Time Management, Critical Thinking

DESKTOP SKILLS

Microsoft Word, Microsoft Excel, Microsoft PowerPoint, JavaFX

LANGUAGES

English, French, Arabic

CERTIFICATIONS

- Cisco Networking Basics – Cisco Networking Academy
- Relational Database Certificate
- Responsive Web Design – freeCodeCamp
- Fundamentals of Agents (Certificate of Achievement) – Hugging Face
- JavaScript and Frontend Development Libraries – freeCodeCamp (in progress)
